

## SUMMER EMPLOYMENT INTERNSHIPS 2009

Becoming a Summer Employment Worksite is an excellent way to mold your future workforce. The ideal summer work experience centers on career and job place skills development and will help young adults link their secondary academic preparations and the summer work experience.

Career Development focuses on a person's assets; communicates high expectations; provides opportunities for leadership; encourages a sense of personal identity; broadens a young person's perspective; provides safe surroundings; and connections with professional and caring adults.

If you are interested in having a Summer Employment staff member visit your site to discuss this opportunity, please complete the information below and fax to M. Francino at 301-274-1924:

Name of Agency/Organization: \_\_\_\_\_
